SUMMARY

I worked as a web developer in 2023 using native PHP and then transitioned to JavaScript to revamp a website that was previously built with PHP.
From June 2024 to July 2024, I took on a project developing a website called SIMORE for BASARNAS.
In 2025, I started using TypeScript for a mobile app project called PTSP - BMKG, which required a mobile application. At the same time, I also worked on Ndaru Farm using TypeScript.
I enjoy exploring new things and learning challenging skills.

EXPERIENCE

- Full-Stack Mobile Developer**
PTSP - BMKG

05/2025 - Present

 - I'm using Expo React Native, Typescript, Tailwind CSS, and Firebase.
 - I'm handling authentication and working on the client side as well.
 - The project is still in the development stage.
- Front-End Mobile Developer**
NDARU FARM

01/2025 - Present

 - Here, I'm using TypeScript with Expo React Native. For styling, I use Tailwind CSS. The database will be handled with Supabase, and the back end is built with NestJS.
 - The project is still in the development stage.
- Full-Stack Web Developer**
PTSP - BMKG ↗

09/2023 - Present

 - I am performing CRUD operations and authentication on the website.
 - The tools I'm using are JavaScript, TypeScript, Firebase, and Tailwind CSS.
- Back-End Developer**
BASARNAS - SIMORE

06/2024 - 07/2024

 - I'm using native PHP, Tailwind CSS, and XAMPP as the database environment.
 - In this role, I'm working as a back-end developer, managing the CRUD operations.

EDUCATION

- Science and Computer Engineering.**
Univesity Jendral Achmad Yani - Bachelor of IT
- 09/2022 - 06/2026

CERTIFICATES

- Back End Developer**
BASARNAS
- 06/2024 - 07/2024
